## AUSBIOTECH 2011 CONFERENCE SPEAKERS' PROFILE

**Paul Stoffels, M.D.**

**Worldwide Chairman**

**Janssen, Pharmaceutical Companies of Johnson & Johnson**

Dr Paul Stoffels is Worldwide Chairman of Janssen, Pharmaceutical Companies of Johnson & Johnson. Dr. Stoffels is leading the expansion of the pharmaceutical group through R&D, partnerships and acquisitions.

Prior to his role as Worldwide Chairman he was Global Head, Pharmaceutical R&D in 2009. He was instrumental in driving the growth of the pipeline of new medicines. Dr Stoffels created one R&D organization across the pharmaceutical companies of Johnson & Johnson and focused on R&D productivity, internal R&D and partnerships. The new global R&D organization is focused to discover and develop new and innovative treatments for unmet medical needs in five end-to-end therapeutic areas: oncology, immunology, neuroscience (incl. pain), cardiovascular and metabolism, and infectious diseases/vaccines.

Dr. Stoffels was named Company Group Chairman in 2006, with responsibility for worldwide research and development in the CNS, Pain, Infectious Diseases, Metabolism, Cardiovascular and Primary Care therapeutic categories.

Before assuming that role, he led the development of PREZISTA and INTELENCE, our leading HIV products, at Tibotec.

From 1997 until 2002, Dr. Stoffels was Chief Executive Officer of Tibotec and Virco, 2 biotech companies based in Belgium. He continued to lead the organizations after their acquisition by Johnson & Johnson, first as President of Tibotec and later as Company Group Chairman for the Virology franchise.

He began his career as a physician in Africa, focusing on HIV and tropical diseases research. When he returned to Belgium, he assumed responsibility for the infectious disease drug development at Janssen in Beerse.

Dr. Stoffels studied Medicine at the University of Diepenbeek and the University of Antwerp in Belgium and Infectious Diseases and Tropical Medicine at the Institute of Tropical Medicine in Antwerp, Belgium.
