## AUSBIOTECH 2011 CONFERENCE SPEAKERS' PROFILE

**Andreas Knack**  
**Director of Biomedical Instruments and Devices**  
**Invetech, Australia**

Andreas Knaack is Director Biomedical Instruments & Devices at Invetech in Melbourne, Andreas has been with Invetech for 7 years.

After completing his Masters degree in Computer Engineering at Hamburg University, Germany, Andreas joined Draeger Medical and went on to head up Draeger's R&D for Neonatal Warming Therapy.

Following on from Draeger, he was Technical Director for a Hamburg-based VC firm with a focus on early stage Medical Device investments and assisted a variety of clients in development of business plans and technology strategy.

In his current role at Invetech, Andreas heads Invetech's Biomedical Instrumentation & Devices Business Unit, covering all relevant functions from Business Development to project delivery. Focus of this group is the development of novel and groundbreaking systems and solutions for Invetech's global clients in IVD and Medical Devices.
