AUSBIOTECH 2011 CONFERENCE SPEAKERS' PROFILE

Dr David Fuller
Chief Operating Officer and Chief Medical Officer
INC Research, Australia

Dr David Fuller has over 20 years' international experience developing and commercializing new therapeutic products in both large and small cap environments in the US, EU and Australasia.

His R&D experience encompasses all stages of product development and commercialization including Pre-clinical, Clinical Development, Regulatory Approval, product launch and on-market support (Medical Affairs).

David has had direct leadership roles in four product approvals (US/EU) and has designed and successfully executed numerous Phase I-III studies in diverse geographic territories (US, EU, Asia, South America) for both orphan and major market products. Products developed include small molecule, biological, drug delivery and medical devices spanning diverse therapeutic areas.

David also has strong business development & commercial management experience from successfully managing his own businesses as well as participating in senior management of publically listed companies (CeNeS (UK), Orphan Medical (US), Genzyme (UK) and Arana Therapeutics Limited).

David holds degrees in Medicine and Pharmacy from the University of Sydney.
