

# Creativity. Capability. Capital.

**AusBiotech2011**  
AUSTRALIA'S BIOTECHNOLOGY CONFERENCE

**16 to 19 October 2011**  
Adelaide Convention Centre, South Australia  
[www.ausbiotech2011.com.au](http://www.ausbiotech2011.com.au)

## AUSBIOTECH 2011 CONFERENCE SPEAKERS' PROFILE

**Dr Ian Dry**  
**Principal Research Scientist**  
**CSIRO Plant Industry Division, Australia**

Dr. Ian Dry is a Group Leader with CSIRO Plant Industry in Adelaide.

He completed his PhD in Plant Biochemistry at the University of Adelaide in 1984, spent time as a postdoctoral fellow at the John Innes Centre in Norwich, UK and joined CSIRO in 1991.

His current research is focused on molecular plant pathology and the genetics of fungal disease resistance in grapevines. His group are the first to successfully transfer disease resistance genes from a wild grape species into transgenic winegrape cultivars.
