AUSBIOTECH 2011 CONFERENCE SPEAKERS' PROFILE

Dr Jenny Petering BSc(Hons), PhD

Partner

FB Rice, Australia

Jenny has extensive experience in managing international patent portfolios, including strategic planning, providing due diligence and infringement and patentability advice, and coordinating opposition and litigation proceedings. She acts for a broad range of clients including start up companies, universities, hospitals, co-operative research centres and research institutes.

Her areas of expertise include; antibody technology, protein evolution technique, diagnostics, targets for drug development, gene cloning, gene expression, transgenic animals, adult and embryonic stem cells, yeast genetics and agricultural systems.

Managing IP's 2006 annual survey of IP firms listed Jenny as a Selected Specialist Individual for patents in Australia and included the statement:

'Attorney firm FB Rice has an excellent reputation for trade mark and patent filing. Of its "impressive group of talented partners"....Jenny Petering stands out for patent work.'

Jenny registered as a patent attorney in 1994 and was awarded the Institute of Patent and Trade Mark Attorneys Prize in 1995 for the best candidate on qualifying as a patent attorney.

Jenny is a Fellow of IPTA, a member of Ausbiotech, IPSANZ, AIPPI and APAA.
