AUSBIOTECH 2011 CONFERENCE SPEAKERS' PROFILE

Dr Verna MacErlane
Director of Commercial Operations International
SISTEMIC, Scotland

Dr. Verna McErlane is Director of Commercial Operations at Sismic Ltd, a Glasgow, Scotland-based firm that provides miRNA-based products to the Cell Therapy, Drug Development and Bioprocessing markets.

Verna gained her PhD in cancer drug development and spent time at the Gray Cancer Institute, London and SPEAR Therapeutics Ltd prior to moving to the University of Dundee, Scotland. Subsequently, she was chosen to take part in the distinguished Saltire Foundation Fellowship program, an experiential MBA where she spent time working on commercial cell therapy projects with Genzyme & in vitro diagnostic market entry strategies for Axis-Shield. This has allowed Verna to further her passion for commercialising science into realisable patient benefits.
