## AUSBIOTECH 2011 CONFERENCE SPEAKERS' PROFILE

**Dr Jenny Harry, PhD**  
**Chief Executive Officer and Managing Director**  
**Tyrian Diagnostics, Australia**

Dr Jenny Harry became an executive member of the Board and Deputy Chief Executive of the company in 2005 and was appointed Chief Executive Officer in June 2007.

In 2006 she successfully completed the General Manager Program at Harvard Business School. Over the last 4 years as CEO she has played a central role in guiding Tyrian Diagnostics through its successful restructuring from a technology development company to a diagnostics business. Her effective combination of scientific expertise and management experience has contributed strongly to the Company's strategic direction, and her efforts have been critical to commercializing its first diagnostic products.

She has been responsible for initiating and negotiating agreements with a number of multinational partners, including Becton Dickinson, and Company, USA, the Geneva-based Foundation for Innovative New Diagnostics (FIND), supported by Bill and Melinda Gates, Bayer CropSciences AG and Aradigm Corporation.
