AUSBIOTECH 2011 CONFERENCE SPEAKERS' PROFILE

Professor Brendon Kearney
Chair, Health Policy Advisory Committee
Technology (HealthPACT) & EuroScan International Network

Professor Brendon Kearney has had an illustrious career with a list of achievements in the health services field that began as a junior hospital doctor in 1969, then advancing to senior managerial health positions.

His dedication has seen him directly contributing to the development and improvement of the Australian healthcare system, proposing recommendations for change, developing state wide frameworks and displaying immense dedication to serving the Australian and in particular South Australian community.

In 2005, Professor Kearney was awarded the prestigious Sidney Sax Medal by the Australian Healthcare Association in recognition of an individual who has made an outstanding contribution to the field of health services policy, organisation, delivery and non clinical research. In 2003 Professor Kearney was awarded a Member in the Order of Australia for service to Medical Administration in South Australia, recognising his contribution to medical research promotion and his coordination for South Australia of the medical response team assisting victims of the Bali bombings.

Professor Kearney is currently the chair of Health Policy Advisory Committee on Technology (HealthPACT) and EuroScan International Network whilst continuing a significant case load in South Australia.
