AUSBIOTECH 2011 CONFERENCE SPEAKERS' PROFILE

Professor Rocky De Nys, PhD, GDipMgt (TechMgt)
School of Marine and Tropical Biology
James Cook University, Australia

Rocky de Nys is Professor of Aquaculture within the School of Marine and Tropical Biology at James Cook University, Townsville, Australia.

He has published extensively across a broad range of research fields including algal biology and chemistry, aquaculture, biofouling, marine natural products chemistry and chemical ecology.

Much of this research is applied contributing to the development of the biotechnology applications and products.

Rocky leads a large multidisciplinary research group developing the integrated culture of micro- and macro- algae for bio-products, with a focus on biofuels, animal feeds, human foods and biochar.
